

The logo for BJCE (Berkshire Joint Community Education) is located in the bottom right corner. It features the letters "BJCE" in a bold, italicized, sans-serif font. A large, stylized, dark blue arc curves around the "E", starting from the top and ending at the bottom, resembling a protective shield or a dynamic swoosh.

Scatter plot showing the relationship between $\log_{10}(\Delta T)$ (Y-axis) and $\log_{10}(\Delta T_{\max})$ (X-axis) for the sample 13.51(2). The data points are represented by open squares. The Y-axis ranges from -1 to 1, and the X-axis ranges from -1 to 1. The data points are scattered around the diagonal line $y = x$, indicating a positive correlation between the two variables.

B. (Mr. Meng)
C. (Mr. Yu)

Figure 1 is a schematic representation of the experimental design. It shows a sequence of events for three groups: A, B, and C. Group A starts with a 'Pretest' (10 trials) and then enters a 'Training' phase (10 trials) with a 'Feedback' (10 trials) period. Group B starts with a 'Pretest' (10 trials) and then enters a 'Training' phase (10 trials) with a 'Feedback' (10 trials) period. Group C starts with a 'Pretest' (10 trials) and then enters a 'Training' phase (10 trials) with a 'Feedback' (10 trials) period. The diagram uses symbols for correct (green square), incorrect (red square), and feedback (yellow square) to represent the sequence of events.
